# European Lean Educator Conference (ELEC 2016)

## 13-15 September

Whilst the Lean Educator conference has been held in USA for many years (more recently in association with the Institute of Industrial Engineers IIE and Lean Enterprise Institute), the first European Lean Educator Conference took place in Stuttgart in September 2014, and the second was held in Sweden in September 2015. Both were exceptional, allowing delegates to hear highly relevant keynotes, present papers, and generally to network and share experiences in teaching, educating, communicating and learning Lean, and in related fields such as Agile software, Lean Six Sigma and Factory Physics.

The European Lean Educator Conference is dedicated to fostering exchange within academia as well as between education and industry, which we believe is especially important. Toward that end, we are targeting both educators, Lean teaching and coaching specialists from industry.

The theme of the conference is '**Lean education outside of manufacturing**'. This could include topics as diverse as Lean Product Design, Product and Software Innovation, Agile and Scrum, Lean Accounting, Lean in the Office, Lean Service, Systems thinking, Continuous improvement, as well as applications from healthcare, supply chain, Lean in education, Quality and 'Kata'.

Through innovative educational approaches – ranging from simulations, case studies, learning factories and new training methods – participants will receive new ideas for teaching, practicing and coaching continuous improvement.

**12 September - Pre-conference Workshop**

Improvement Kata and Coaching Kata - Anna Possio

**Conference Day One****13 September - Keynotes from:**

- Innovation in Education - *Sir Anthony Seldon*
- Systems Thinking and Re-thinking Lean - *Professor John Seddon*
- Kata for the Environment - *Professor Pauline Found*
- The Origins of Lean and Lessons for Today - *Professor Christoph Roser*
- Counter-Intuities: Lean, Innovation & Complex Adaptive System - *Professor Darrell Mann*
- Agile for Lean People - *Belinda Waldock*
- Teaching Lean to Undergraduate Engineers - *Teresa Hattingh*

**Evening Conference & buffet/BBQ at 18:00 (included in Conference Day 1 & 2 ticket price)****Conference Day Two****14 September: 3 streams of papers presented by leading Lean educators****15 September - Workshops (Optional at extra cost)**

- Change Management and Lean Simulation - *Joakim Hillberg*
- Vanguard Methodology - *Professor John Seddon*
- Bottleneck Identification by Inspection - *Professor Christian Roser*
- TRIZ - *Professor Darrell Mann*
- Agile Thinking - *Belinda Waldock*

**Date and Time**

12-15 September 2016

**Duration**

8.30am - Registration (each day)

9.30am to 6.30pm - Pre-conference workshop

9.00 to 5.30pm - Conference days one and two

9.00 to 2.30pm - Post-conference workshops

**Venue**Chandos Road Building  
University of Buckingham  
Buckingham  
MK18 1EG**Prices****TWO DAY Conference and Evening BBQ Ticket (13-14th Sept 2016)**

Standard Delegate Price = £675.00
