

LEAN EXECUTIVE MASTERCLASS

Hands-on introduction to new Lean Management Practices

27th June 2011

National Motorcycle Museum, Nr Birmingham, UK

Leading Lean from the Executive Office

A one day workshop on how the OOBeya ROOM can transform Management Effectiveness

"The Oobeya room is a visual hub for gaining cross-functional agreement on the vital few initiatives, for triggering the strategy deployment process, for real time project management, for resolving issues and capturing learning. It is one of the most important building blocks for creating your own lean management system." *Daniel T Jones, Chairman, Lean Enterprise Academy*

PROGRAMME

8.30—12.00 Introduction: Developing a Lean Management System

Daniel T Jones, Lean Enterprise Academy

The Toyota Management System and the Oobeya Room

Takashi Tanaka, QV Systems & Toyota Engineering Co

From Engineering to the Executive Office

Sharon Tanner, QV Systems (Formerly at Boeing)

12.00—13.00 Lunch

13.00—15.30 Hands-on Workshop to experience the power of the Oobeya Room

16.00—17.00 Review implications and next steps

Takashi Tanaka is an expert on the Toyota Management System and facilitated the use of Oobeya visual project management for the Lexus and Prius projects at Toyota. He has introduced many organisations to use the Oobeya process in engineering and product development. He is now working with Boeing Commercial Airplane to take the Oobeya system from engineering to manage projects in the Executive Office, lead until recently by Sharon Tanner.

You can follow Takashi and Sharon's presentations to the UK Lean Summit 2010 as a Podcast at www.leanuk.org.

A unique opportunity to experience the true potential of the Oobeya room.

BOOK EARLY ONLY 56 PLACES AVAILABLE

Price: £500 per delegate or £450 for two or more people from the same organisation
