

LPPDE Europe 2016

The Lean Product and Process Development Exchange is proud to announce the thirteenth Lean Product & Process Development Conference, this time organized in collaboration with the Lean Enterprise Academy.

Who attends our events?

A good mix of practitioners from companies and academics who seek to learn and apply the principles of Lean Product Development to

- improve the flow of new and improved products,
- reduce product costs,
- increase learning,
- shorten time-to-market,
- improve schedule and cost predictability,
- improve product innovation,
- improve relationships with business counterparts,
- reduce defects in released products, and
- overcome errors and setbacks more quickly.

Lean Thinking provides a path to the goals above. And LPPDE provides an outstanding networking and educational experience to get you there.

Exchanging thoughts and ideas with others is an efficient way to develop your thinking and to learn.

The 2016 LPPDE Europe will provide plenty of opportunities for attendees to learn about lean from morning to evening.

Contribute to the dissemination of emerging and exciting ideas.

Come and take an active part in Lean Product and Process Development!

Göran Gustafsson, Senior Lecturer at Chalmers University of Technology
Conference Chair
LPPDE Europe 2016

LPPDE Europe 2016

Conference location: Wokefield Park, Reading, Berkshire, UK

De Vere Venues Wokefield Park blends the charm of a traditional mansion house hotel in Reading with the amenities of a modern executive centre to offer a fabulous choice of accommodation and superb leisure facilities.

Keynote speakers

Daniel T. Jones
Chairman, Lean
Enterprise Academy

Kimio Inagaki
Representative Director, Author, Speaker and
Globaling, Inc.

Michael Ballé
Lean Executive Coach

Cécile Roche
Lean & Agile Director,
Thales Group

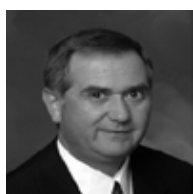

Takao Sakai
Owner, Global People
Solutions, Inc.

Special workshops by

Durward Sobek

Kent Harmon

Norbert Majerus

Katherine Radeka

Ron Marsiglio

Monica Rossi

Peter Palmér

Ahmed Al-Ashaab

LPPDE Europe 2016

26th – 27th April

Pre-conference workshops

25th April

Post-conference workshops

28th April

Lean Product & Process Development ...

The Leading Edge of Lean

The non-profit Lean Product & Process Development Exchange has become one of the world's most impressive gatherings of lean product and process development proponents. Many of lean and lean product development's most recognized thought leaders, authors, and practitioners create an event full of Learning, Networking, and Planning opportunities.

Learning

Think incubator. More learning is accomplished during 2 or 3 days at this conference than in many months of reading books, classes, and self-paced learning. Learn from more than a dozen companies actively engaged in their own lean product development journeys. What worked? And more importantly, what didn't, and why?

Networking

Closely tied to learning are the networking opportunities at the Exchange. You'll leave with a new set of contacts fostered through interactions with your peers. This network will prove valuable long after the Exchange has ended as you share ideas, best practices, and benchmarking once you return to your office. Ample time is given to networking and thought sharing through "Open Space" discussions, evening reception, breaks, and down-time.

LPPDE, a Learning Experience

Pricing

Conference participation on April 26 and 27, 2016: USD 1990

Full day workshop, either April 25 or April 28, 2016: USD 795

Two conference days plus one one-day workshop: USD 2685

Two conference days plus two one-day workshops: USD 3280

Discount prices [conference on April 26 and 27 only]

Students with student ID: USD 600

Academic faculty employees: USD 995

Groups: [contact us](#) for a special arrangement.
